Summary

Recent BCA graduate with fundamental knowledge of software design, development and testing. Seeking to utilize my broad educational background with analytical, technical and programming skills to thrive as an entry level software developer.

Skills

- C, C++, Python, HTML, CSS, JavaScript(basic), Data Structure, OOPs
- Flutter, Visual studio, Android studio, Firebase, MS word, Adobe premiere pro, Adobe photoshop, canva

Projects

REMEDEASE- Android Mobile Application

- **Role:** Full-stack developer
- **Used:** Kotlin, Flutter, Android studio, Shared preference
- **Description:** Developed the "Remedease" app using Flutter, Kotlin, and Android Studio, providing easy access to homeopathy healthcare services with a user-friendly UI, shared preferences for data storage, and prescription history tracking. Designed a visually appealing logo in Adobe Photoshop, combining 'remedy' and 'ease' to reinforce the app's brand identity.

WEATHER WEB - API based website

- **Role:** Full-stack developer
- **Used:** HTML, CSS, JavaScript, Visual studio
- **Description:** Developed a weather website using JavaScript and the OpenWeatherMap API, offering real-time weather updates with a responsive, user-friendly interface. Used HTML for structure, CSS for styling, and custom styles for dynamic elements like weather icons and temperature displays.

Kitty-Run - Game

- **Role:** Full-stack developer
- **Used:** Python, Visual studio, canva
- **Description:** Developed the game using Python for logic and mechanics, Pygame for 2D graphics, user input, animation, and sound effects, and Visual Studio for coding, testing, and debugging. Used Canva to create images of all characters.

Whiskas cat food - Advertisement

- **Role:** Video Editor
- **Used:** Adobe Premiere Pro, AI voice maker, canva

- **Description:**Created a visually engaging advertisement for a cat food brand, highlighting its benefits and appeal. Used Adobe Premiere Pro to edit video, adding smooth transitions and eye-catching effects, while crafting a compelling narrative. Generated an AI-powered voiceover to deliver the message with clarity and emotion, ensuring a professional tone.

Publication

- Research on 'Remedease: A Mobile Application for Homeopathy Healthcare' presented and published in ICIDSSD 2024
- Develop a mobile application to improve access to homeopathy healthcare service.
- Designed an intuitive user interface for easy navigation and user engagement.
- Utilized Shared Preference for managing and storing user data efficiently within the application.

Education

2021 - 2024

BACHELOR OF COMPUTER APPLICATION

Jamia Hamdard University, Delhi

Percentage: 90%

2019 -2021

High School

Sarvodya Kanya Vidyalaya Sr. Sec. School, Delhi

Percentage: 79%

Certification

- **ICIDSSD 2024:** Remedease: an integrated mobile application in homeopathy healthcare. In press at 4th International Conference on ICT for Digital, Smart and Sustainable Development (ICIDSSD) 2024.
- **WORKSHOP ON 5G NETWORK SECURITY-IIT DELHI:** Participated in the TRAINING WORKSHOP ON 5G NETWORK SECURITY organized by 5G INDIGENOUS TEST BED O&M TEAM OF IIT DELHI
- **PROFOUND CLASSES, DELHI :**Object Oriented Programming and basics of Data Structure with C++
